RE : COMPLIANCE TO SOP AT CONSTRUCTION SITES

The initial Movement Control Order (MCO) which commenced on 18 March 2020 has since been extended multiple times. We are currently under the Conditional Movement Control Order (CMCO) until 9 June 2020.

From the onset, REHDA has had numerous engagements with the Government which resulted in the construction sector being allowed to operate during the MCO (Phase 3). Companies, however, were required to comply with the established Standard Operating Procedures (SOP).

Since then, there have been few reports of outbreaks at construction sites in Kuala Lumpur and in view of the latest outbreak which recorded 44 Covid-19 cases, we would like to remind all REHDA members to ensure that your staff and contractors strictly adhere to the SOP for Construction Industry issued by the Construction Industry Development Board (CIDB). Members should also ensure that your contractors fully abide with the relevant SOP not only at the construction site but also at their workers' accommodations.

Until a vaccine is available, the adoption of these measures will be part of the new normal at our workplace. We urge all members to work closely with all stakeholders and play our role to break the chain in containing the spread of the pandemic.

On our part, REHDA will continue to engage with the Government on measures to protect and invigorate the property industry post MCO as well as towards a recovery plan which would be all-encompassing to revive our economy in the fastest possible time.

Let us work together to break the Covid-19 chain!

Yours sincerely
